OUR WASHROOM SERVICES

WE UNDERSTAND COMMERCIAL WASHROOMS ARE DEMANDING ENVIRONMENTS. OUR EXTENSIVE RANGE OF WASHROOM SERVICES ENSURES YOUR WASHROOM IS ALWAYS CLEAN, WELCOMING AND IMPORTANTLY, HYGIENIC.

SUSTAINABLE SERVICE: All the hygiene waste we collect is taken to our transfer station where it's sorted for recycling and recovery. It's collected and sent to local energy from waste (EfW) plants where it's turned into a renewable fuel source which is used to power our homes, hospitals, schools and businesses.

LINER SERVICE: We keep our sanitary bins in situ and clean and sanitise the bin and change the liner at every service. This way of servicing is efficient, discreet and minimises disruption.

SimplySilver
ANTI-MICROBIAL TECHNOLOGY

All our feminine hygiene units come with Simply Silver antimicrobial liners as standard. Featuring silver ion technology, the liners significantly reduce bacterial growth and combat odours.

THE LEGAL BIT: To ensure you and your business adheres to your Duty of Care obligations, all the hygiene waste we collect is handled and disposed of in the correct manner and in accordance with UK legislation.

OUR FEMININE HYGIENE SERVICES

WE UNDERSTAND DISPOSING OF HYGIENE WASTE IS A SENSITIVE ISSUE. THAT'S WHY WE PROVIDE A DISCREET AND HYGIENIC SERVICE WHILST ENSURING YOUR HYGIENE WASTE IS DISPOSED OF IN A SUSTAINABLE WAY.

Capacity: 23 litres
Dimensions: 510mm(w) x 550mm(h) x 160mm(d)
Finishes: White, grey, black and chrome, black and silver

KEY FEATURES

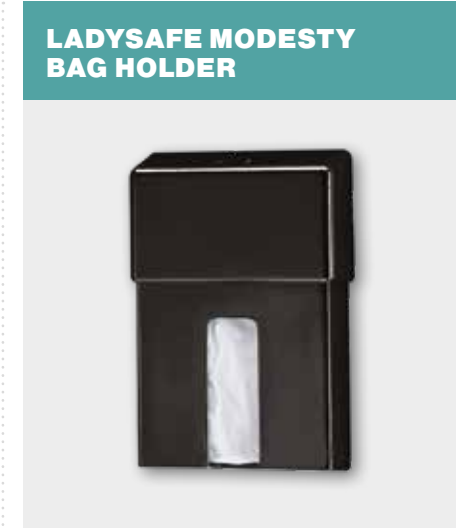

- Sleek and modern design
- Available in all black finish exclusive to Simply Washrooms
- Innovative reversible top cover for easy location either side of the cubicle
- Designed with soft edges to aid cleaning
- Available in pedal operated or electric non-touch models for hands-free operation
- Unit can be recycled

Capacity: 15 litres
Dimensions: 510mm(w) x 400mm(h) x 160mm(d)
Finishes: White, grey, black and chrome, black and silver

KEY FEATURES

- Sleek, modern and compact design
- Reversible top cover for easy location either side of the cubicle
- Designed with soft edges to aid cleaning
- Available in pedal operated or electric non-touch models for hands-free operation
- Unit can be recycled

Capacity: 50 bags

Finishes: White, stardust silver, rose blush, crystal graphite

KEY FEATURES

- Efficient, high speed hand dryer (12 seconds)
- Typical cost per year to run is £15
- High intensity single nozzle outlet
- Low energy use
- Stylish anodized finish
- State-of-the-art brushless motor
- Suitable for high traffic areas
- LED indication and blue guidance light

ECODRY 4

Dimensions: 286mm(w) x 321mm(h) x 99mm(d)

Finishes: White, satin stainless steel, black

KEY FEATURES

- Efficient, high speed hand dryer (12 seconds)
- Typical cost per year to run is £19
- Low energy use
- DDA compliant
- Controllable power output
- HEPA filtration
- Suitable for high traffic areas
- LED indication and blue guidance light

ECODRY ATOM

Dimensions: 170mm(w) x 246mm(h) x 150mm(d)

Finishes: Stain stainless steel, white ceramic, polished stainless steel

KEY FEATURES

- Quiet, high speed hand dryer (13 seconds)
- Typical cost per year to run is £21
- Compact and efficient – utilising only 500 watts of power
- Low energy use
- Internal UV protection
- Low noise level

ECODRY OWL

Dimensions: 170mm(w) x 246mm(h) x 150mm(d)

Finishes: Pink, blue and green

KEY FEATURES

- Quiet, high speed hand dryer (13 seconds)
- Designed to engage with children of all ages whilst promoting hand hygiene and efficiency
- Typical cost per year to run is £21
- Available with bespoke logo and branding
- Compact and efficient – utilising only 500 watts of power
- Low energy use
- Internal UV protection
- Low noise level

VERDEdri

Dimensions: 295mm(w) x 339mm(h) x 100mm(d)

Finishes: White ceramic, polished stainless steel, brushed stainless steel, black

KEY FEATURES

- Quiet, high speed hand dryer (13 seconds)
- Typical cost per year to run is £13
- Energy efficient – utilising only 950 watts of power
- DDA compliant
- Suitable for high traffic areas
- Featuring HEPA filtration system and antibacterial technology SteriTouch®

V7-300

Dimensions: 300mm(w) x 617mm(h) x 195mm(d)

Finishes: Aluminium matte, silver aluminium, Atlantic blue, black, Bordeaux red, champagne, pumpkin, cherry red, F1 red, Sky blue, snow white

KEY FEATURES

Dimensions: 300mm(w) x 617mm(h) x 195mm(d)

Finishes: Aluminium matte, silver aluminium, Atlantic blue, black, Bordeaux red, champagne, pumpkin, cherry red, F1 red, Sky blue, snow white

KEY FEATURES

- High power, low energy hand dryer (10 seconds)
- Available with bespoke logo and branding
- Typical cost per year to run is £27
- 3 blades of air strategically placed to dry hands in under 10 seconds
- Antibacterial protection
- Water collection
- Vandal proof ABS polymer
- ZeroGel fragrance system

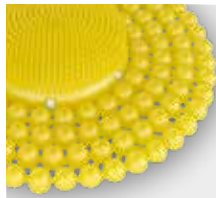

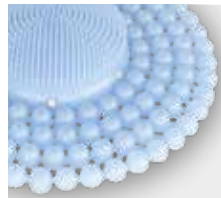

OUR URINAL AND CUBICLE SERVICES

OUR RANGE OF URINAL AND CUBICLE SERVICES HELPS YOU **TACKLE BACTERIA AND ODOURS IN THE TOILET AND URINAL BOWL.**

Our services enable you to manage your water use efficiently and ensures your washroom is clean and hygienic.

P-SCREEN® URINAL SCREEN

KEY FEATURES

- The world's first triple action 60-day urinal screen
- Inbuilt enzyme block via active central core
- Designed to reduce bacteria
- Provides secondary fragrance for urinal areas
- Deep bubble and bristle design for optimum splash back protection
- Recyclable

TOILET SEAT SANITISER

Dimensions: 118mm(w) x 275mm(h) x 110mm(d)

Finishes: White, grey and chrome

Customised insert designs available:
White, turquoise, red, beige, metal, carbon, wood, water drops

KEY FEATURES

- Dispenses bactericidal toilet seat sanitising foam
- Kills 99.99% of bacteria found on toilet seats
- Foam meets European Standards EN 1275 and EN 1040

AUTO TOILET SEAT SANITISER

Dimensions: 127mm(w) x 285mm(h) x 118mm(d)

Finishes: White, grey and chrome

Customised insert designs available:
White, turquoise, red, beige, metal, carbon, wood, water drops

KEY FEATURES

- Energy efficient and non-touch
- Dispenses bactericidal toilet seat sanitising foam
- Kills 99.99% of bacteria found on toilet seats
- Foam meets European Standards EN 1275 and EN 1040

MINI TOILET SEAT SANITISER

Dimensions: 96mm(w) x 201mm(h) x 77mm(d)

Finishes: White

KEY FEATURES

- Robust and compact toilet seat sanitising foam dispenser
- Ultra-economical foam uses 30% less consumable than a comparable fluid sanitiser
- Kills 99.99% of bacteria found on toilet seats
- Foam meets European Standards EN 1275 and EN 1040

URINAL SANITISING UNIT

Dimensions: 128mm(w) x 251mm(h) x 85mm(d)

Finishes: White, grey, chrome

KEY FEATURES

- Fully programmable urinal and WC sanitiser
- Injects sanitiser directly into the cistern tanks for WC's or urinals
- The toilet or urinal bowl is treated on every flush
- Reduces bacteria and leaves bowl clean and sanitised

OUR **WATER MANAGEMENT** SERVICES

IT'S IMPORTANT TO GET THE RIGHT BALANCE BETWEEN CONSERVING WATER AND IMPROVING HYGIENE IN YOUR WASHROOM. **OUR RANGE OF WATER MANAGEMENT UNITS WILL SAVE YOU WATER AND MONEY** WITHOUT COMPROMISING ON HYGIENE.

SENSAFLUSH® WATER MANAGEMENT UNIT

Dimensions: 60mm(w) x 120mm(h) x 42mm(d)

KEY FEATURES

- Intelligent magic-eye flush control system
- Programmable
- Only flushes the right amount of water for the footfall
- Reduces water consumption by up to 90%
- Detects movement from up to 15 metres away
- Performs a hygiene flush every 12 hours if no movement is detected – complying with your legal requirements

AUTOFLUSH WATER MANAGEMENT UNIT

Dimensions: 113mm(w) x 113mm(h) x 152mm(d)

KEY FEATURES

- Compact automatic urinal flush system that improves hygiene and reduces water wastage
- Built-in auto cleansing flush (every 12 or 24 hours) for maximum hygiene during unoccupied periods
- Choice of 30- or 60-minute timed flow detection
- Reduces water consumption by up to 80%

OUR **VENDING** SERVICES

OUR VENDING SERVICES PROVIDE YOU WITH AN EFFECTIVE AND CONVENIENT WAY TO ENSURE **YOUR WASHROOM USERS NEVER NEED TO WORRY** ABOUT FORGETTING THOSE EVERYDAY ESSENTIALS AGAIN.

VENDING CONSUMABLES

Our extensive range of familiar branded products provides your washroom with a bespoke vending solution tailored to your specific requirements and budget.

MULTI-VEND UNIT

Dimensions: 360mm(w) x 1000mm(h) x 230mm(d)

Finishes: White and silver

KEY FEATURES

- The perfect vending unit for high traffic washrooms
- Consistent and reliable vending
- Accepts a wide variety of coins
- Robust and high security casing

AUTO-VEND UNIT

Dimensions: 260mm(w) x 900mm(h) x 185mm(d)

Finishes: Black, white and silver

KEY FEATURES

- The perfect vending unit for washrooms with limited space
- Practical and robust design
- Compact and sleek design
- Robust and high security casing

DUAL-VEND UNIT

Dimensions: 260mm(w) x 900mm(h) x 190mm(d)

Finishes: White and silver

KEY FEATURES

- Suitable for all washroom environments
- Dual column vending machine
- Secure, manual operation
- Robust and high security casing

OUR AIR CARE SERVICES

WE UNDERSTAND IT CAN BE DIFFICULT TO KEEP WASHROOMS IN HIGH TRAFFIC BUILDINGS SMELLING FRESH. ELIMINATING UNPLEASANT ODOURS IS A TRICKY AND IF YOU GET IT WRONG, SMELLY BUSINESS.

OXY-GEN AIR FRESHENING SYSTEMS

Harnessing the power of pure oxygen, the Oxy-Gen air freshening systems deliver consistent and continual ambient fragrance without any added volatile organic compounds (VOCs), solvents, propellants or other environmentally unfriendly emissions.

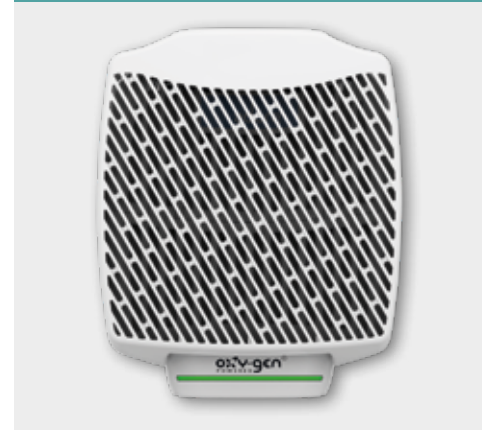

Most air fresheners work by masking odours with heavy perfume. The Oxy-Gen air freshening systems work by releasing a continuous neutralising agent to eliminate, not mask, bad odours. It leaves only fresh scent in the air 24 hours a day, seven days a week.

The system itself is unaffected by temperature, humidity or other environmental factors – making it the ideal solution for high traffic areas. The Oxy-Gen Powered cartridges are EU, CARB and REACH compliant and come in a range of fragrances to suit any location.

The system is Carbon Trust approved making it the perfect solution for those facilities that want to create a clean and welcoming environment without worrying about any harmful side effects.

OXY-GEN PRO

Dimensions: 117mm(w) x 140mm(h) x 103mm(d)

Finishes: White

KEY FEATURES

- Programmable odour control system
- Provides 60 days of continuous fragrance
- Cartridge contains 35 ml of pure fragrance oil – four times more fragrance oil than a standard metered aerosol can

OXY-GEN SHIELD

Finishes: Stainless steel

KEY FEATURES

- Stylish and robust stainless-steel system with anti-vandal locking device
- Its smooth contours mean that potential vandals are unable to grip and tamper with the system
- Unique ventilation design ensures maximum airflow

OXY-GEN VIVA!e

Dimensions: 64mm(w) x 150mm(h) x 70mm(d)

Finishes: Chrome, white and black

KEY FEATURES

- Compact, stylish and contemporary design
- Provides 60 days of continuous fragrance
- Uses Netra-Lox, a proprietary odour neutralising agent to eliminate, not mask, any bad odours, leaving only fresh scent in the air
- Wide range of fragrances available

AIR FRESHENING UNIT

Dimensions: 128mm(w) x 251mm(h) x 85mm(d)

Finishes: Chrome and white

KEY FEATURES

- Highly effective aerosol air freshening unit
- Compact, discreet and stylish unit
- Dispenses regular doses of aerosolised fragrance
- Wide choice of fresh and welcoming fragrances available
- Large external LCD screen for easy viewing and fast service

OUR AIR PURIFICATION SERVICES

AIRsteril®

AIR QUALITY MANAGEMENT IS AN IMPORTANT COMPONENT IN ANY EFFECTIVE INFECTION PREVENTION AND CONTROL REGIME.

Poor air quality can lead to the spread of harmful bacteria that can create offensive odours and increase the risk of infections.

Airborne microorganisms grow at a rapid rate. In just 8 hours, a single bacteria cell can multiply to over 8 million, meaning odours prevail and the health risks increase.

Standard room cleaning and disinfection methods are not enough. At best, they're a temporary measure. As soon as the area is cleaned, the airborne microorganisms immediately begin to settle, recolonising the surfaces where the bacteria continues to grow and spread.

AIRSTERIL AIR PURIFICATION SYSTEMS

AirSteril air purification systems offer a permanent 24 hours a day, 365 days a year system that guarantees to control infections and odours in any enclosed space. It does this by treating the root cause – by destroying the bacteria, viruses, mould and fungi to ensure the air and all exposed surfaces have been sanitised.

The systems generate UV-C, otherwise known as ultraviolet germicidal irradiation (UVGI). UVGI is a disinfection method that uses short-wavelength ultraviolet (UV-C) light to kill or inactivate microorganisms by destroying nucleic acids and disrupting their DNA, leaving them unable to perform vital cellular functions.

The result? Greatly improved air quality that creates an environment that is clean, comfortable and importantly, hygienic.

WASHROOM COMPLETE RANGE

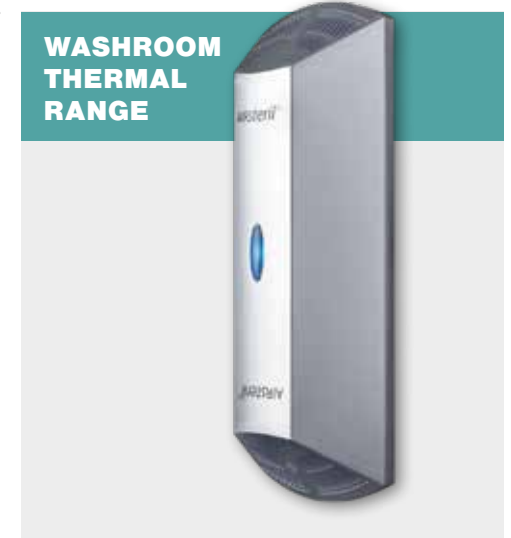

Model options: WC20 / WC30 / WC30X / WC40X

KEY FEATURES

- The perfect air purification system for all washroom environments
- Eliminates unpleasant odours
- Controls harmful bacteria and viruses in the air and on all exposed surfaces
- Robust case with colour matching end caps in an attractive honeycomb design
- Bright blue indicator to clearly show system performance
- Flexible wall or ceiling mounting

WASHROOM THERMAL RANGE

Model options: WT10W / WT20W / WT30W / WT10T / WT20T / WT30T

KEY FEATURES

- The perfect air purification system for all washroom environments
- Eliminates unpleasant odours
- Controls harmful bacteria and viruses in the air and on all exposed surfaces

AIR SILENT RANGE

Model options: AS10 / AS10X / AS20 / AS20M / AS20X

KEY FEATURES

- The perfect air purification system for areas of continuous occupation such as residential care home bedrooms
- Completely silent system
- Eliminates unpleasant odours and controls harmful bacteria and viruses both in the air and on all exposed surfaces

MEGA THERMAL RANGE

Model options: MT75

KEY FEATURES

- The perfect air purification system for even the harshest of environments
- Utilising a hermetically sealed and insulated purification chamber, the MT75 Mega Thermal processes contaminated air ensuring optimum dwell time without the need of a fan
- Offers 24/7 control of odours and harmful bioaerosols in large enclosed spaces such as:
 - Waste storage areas
 - Material recycling facilities
 - Waste compactors
 - Industrial processes

MULTIFLEX RANGE

Model options: MF20 / MF40 / MF60 / MF80

KEY FEATURES

- Fan driven air purification system
- Easily ceiling or wall mounted for continuous operation
- Alternatively, can be supplied with a plug and feet for temporary use on a raised flat surface

MULTI PURPOSE RANGE

Model options: MP100

KEY FEATURES

- Eliminates unpleasant odours
- Controls harmful bacteria and viruses in the air and on all exposed surfaces

OUR WATER DISPENSING SERVICES

OUR EXTENSIVE RANGE OF WATER DISPENSING SERVICES ENSURES YOUR STAFF, CUSTOMERS AND VISITORS HAVE ACCESS TO FILTERED, CHILLED AND HOT WATER.

All our water dispensers are mains-fed providing you with high-quality filtered water on demand without any of the effort and manual handling associated with bottled water dispensers.

All are installed, serviced and maintained to the highest standards and are provided with annual servicing contracts.

AQUAID AND THE AFRICAN TRUST

With every water dispenser we supply to our customers, a donation is made to The African Trust. This Trust is used to build wells, known as Elephant Pumps, to provide essential clean drinking water in communities across parts of Zimbabwe, Malawi and Liberia.

To date, The African Trust has built over 5,000 Elephant Pumps and helped bring much needed clean drinking water to over 2.4 million people.

AQ MAX

Dimensions: 340mm(w) x 1000mm(h) x 330mm(d)

Weight: 20kg

KEY FEATURES

- Classic design
- High quality 1-micron water filtration system
- LED function display and an adjustable thermostat for accurate temperature control
- Available as either hot and cold or cold water only
- Available as a desktop dispenser

AQUAID FUSION

Dimensions: 340mm(w) x 1135mm(h) x 330mm(d)

Weight: 20kg

KEY FEATURES

- Stylish dispenser
- Combines both chilled fresh and hot fresh water in one streamlined machine
- Hygiene Guard silver impregnated dispense taps reduce bacteria transfer and cross contamination
- Available as a desktop dispenser

AQUAID HYDRATOR

Dimensions: 340mm(w) x 1180mm(h) x 340mm(d)

Weight: 25kg

KEY FEATURES

- Stylish and sturdy dispenser
- Perfect design for use in high usage areas
- Dispenses up to 40 litres of cold drinking water per hour
- Hygiene Guard silver impregnated dispense taps reduce bacteria transfer and cross contamination
- Low energy consumption and BREEAM compliant

ECO LARGEFLOW WATER BOILER

Dimensions: 240mm(w) x 570mm(h) x 355mm(d)

KEY FEATURES

- Stylish and robust hot water dispenser
- Perfect for use in medium to high usage areas
- Dispenses up to 30 litres of hot water per hour
- Features SteriTouch anti-microbial protection in tap and drip tray
- Features integral scale-inhibitor technology removes the need for chemical de-scalants
- In-built ECO mode which reduces energy consumption saving resources

WITH THE CONTINUED SUPPORT FROM OUR CUSTOMERS WE HAVE BUILT THE SIMPLY WASHROOMS WELL IN MANICALAND, ZIMBABWE.

Known as an Elephant Pump, the well is a modified version of an age-old Chinese rope pulley system. It was built with the assistance of the local community using locally available materials and will continue to provide clean drinking water to the community for decades to come.

OUR **MEDICAL & CLINICAL WASTE SERVICES**

THE CORRECT MANAGEMENT OF CLINICAL WASTE IS ESSENTIAL. ENSURE YOUR BUSINESS IS SAFE AND COMPLIANT WITH OUR RANGE OF MEDICAL AND CLINICAL WASTE SERVICES.

We will safely collect your waste and ensure your business adheres to current disposal laws.

MEDICAL WASTE UNIT

KEY FEATURES

- Available in a range of sizes
- Pedal operated to reduce risk of cross infection
- Made from durable puncture proof polypropylene
- Provided with tailored Simply Washroom service agreement to meet your individual requirements

SHARPS UNIT

KEY FEATURES

- Available in a range of sizes
- Designed for waste that contains medical residue (contaminated needles, syringes or bodies)
- Made from durable puncture proof polypropylene
- Lockable and tamper resistant
- Approved to UN3291
- Provided with tailored Simply Washroom service agreement to meet your individual requirements

OUR **FLOOR MAT** SERVICES

**BRING YOUR
BRAND TO
LIFE** WITH OUR
PERSONALISED
LOGO MATS

**OUR RANGE OF COMMERCIAL FLOOR MATS
ENSURES YOU MAINTAIN CLEAN AND HYGIENIC
FLOORS,** PREVENTS THE RISK OF SLIPS AND TRIPS
AND PROLONGS THE LIFE OF YOUR FLOORING.

All our mats are serviced and professionally laundered on a regular basis to ensure your floors are constantly protected.

STANDARD MAT

FLOOR CARE SERVICE KEY FEATURES

- High quality nylon pile and rubber construction
- Our logo mats create a warm branded welcome
- Fully managed mat service
- Regularly serviced and laundered to maintain cleanliness
- Protects and reduces wear and tear of floor coverings
- Available in a wide range of colours and sizes
