WE HAVE WHAT YOU WANT

Availability excellence is our mission. Several big Midlands based warehouses and production facilities hold millions of pounds worth of products and components ready for rapid despatch to valued customers throughout the UK and Europe.

EXPRESS DELIVERY

Our dedicated fleet of vehicles, and strong partnerships with key specialist logistics partners, means we achieve express delivery. Just as importantly our low damage model means items are in A1 shape when you receive them.

READY TO USE

Not everyone wants to build a chair when delivered, no matter how easy. Our Good2Go service means you will receive a chair that has been hand-built at our factory, quality checked and signed off ready for you to use straight away.

LET US TAKE THE STRAIN

From a single desk to a full office fit-out, our highly experienced delivery & installation teams deliver to any floor (subject to access), unpack, assemble and put in place. They even take away the packaging. A turnkey service to take care of everything for you.

TRY BEFORE YOU BUY

Before investing in an excellent quality chair why not test drive it first? Our sample service means you can try a product you are interested in for up to a week to ensure it "fits" you.

GUARANTEED TO HELP

All our products carry a full warranty, backed by our UK based company, covering up to 10 years. Our confidence in the quality we achieve safeguards your investment in these exceptional office interior creations.

PLANNING YOUR SPACE

If you are looking to create a larger new office space with multiple workstations let us help you with our planning service.

It will ensure you make the most efficient use of your valuable space and create a pleasant environment.

AIR BACK TO BACK SIT-STAND

HEIGHT ADJUSTABLE DESKING

Sedentary working has now become widely recognised as one of the biggest health threats in the modern office.

Employees sitting at desks for long periods of time risk a possibility of developing a variety of conditions. Our Sit-Stand height adjustable desking provides a solution to the health at work challenge.

By using our Sit-Stand desking with a choice of four widths, three frames and six finishes, users will enjoy better general health that will also improve their efficiency at work.

Healthy and happy employees equal increased productivity and efficiency.

CRAFTSMANSHIP

Dual motors effortlessly elevate and securely uphold a maximum load of 120kg on your adaptable desktop.

FEATURE RICH

Feature rich design includes 3 pin and USB power sockets and data cable points.

USER FRIENDLY

The units are equipped with four memory presets, allowing you to store preferred positions for sitting, perching, and standing, with an extra slot to spare.

EXTEND

Furniture that grows with your team: Air Back to Back furniture's bench format means that this desk range can seamlessly grow with your team

OSLO RANGE

In Norway, they call it design *fortreffelighet*, we call it design excellence. Oslo bench desking is the embodiment of that philosophy.

It melds beautifully structured polar white desktops with a polished solid timber curved leg. The natural tone of the wood legs is reflected with a highlighted desktop edge that blends with the natural wood hue. A flyover desktop appears to float above the strong frame giving a spacious look to the ensemble.

Wire management has been created with a triple port design to the tops enabling cables to be fed through a large central scallop or a side cable wave at each end. Even uneven flooring is no problem with discreet floor levellers fitted on every leg to adjust to different planes.

The white tops are made from high-grade MFC which are heat and stain resistant and provide every office with a Scandinavian *oye appell* (or eye appeal as we say).

OSLO BENCH

Inject some Scandinavian design delight into your workspace with the Oslo Bench. The natural wood legs support a flyover desktop in stunning polar White with a wood highline contrast edge.

Oslo creates a stunning working environment that encourages teamwork, efficiency and provides a stylish workspace that anyone would aspire to inhabit.

Desks feature:

- Triple cable management scallops
- Flyover sliding desktops
- Integrated location for screens
- 25mm heat and stain resistant tops
- 2mm thick ABS colour contrast edging
- Strong steel subframe
- Floor levellers

Step 1

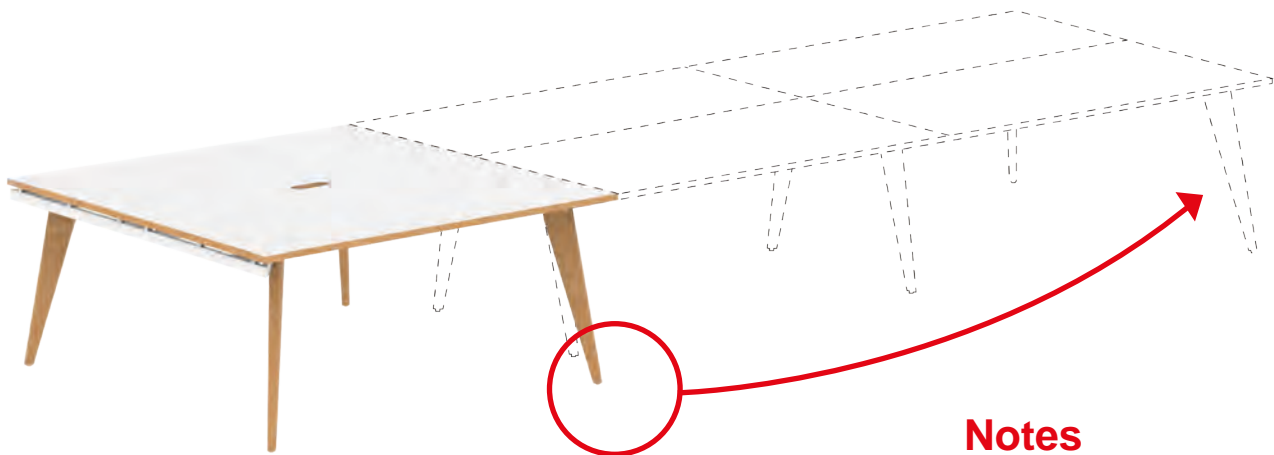

Decide on either a single starter desk or a back-to-back pod of two desks (shown below in colour)

Step 2

Add an extension unit to match with your starter set-up in Step 1.

This means an extension single desk unit, or a twin desk unit depending on the original starter choice.

The dotted line indicates how a back-to-back extension adds to a back-to-back starter desk set.

Notes

Each extension desk comes with a smaller inset leg unit, which gives users improved leg space under the desk and provides an economical way to extend the starter desk.

One of the two full-depth leg units that come with the starter unit then goes at the end of the desking suite as shown with the dotted line on the right to finish off the run.

EVOLVE PLUS BENCH

Future proof your desking solutions with the system that can grow, reduce or alter shape easily and without fuss.

Evolve Plus desks can start with a single starter desk, or a back-to-back two desk pod. Extension units of varying sizes economically add to the length of the desking run, encouraging teamworking and maximising valuable space.

Desks feature:

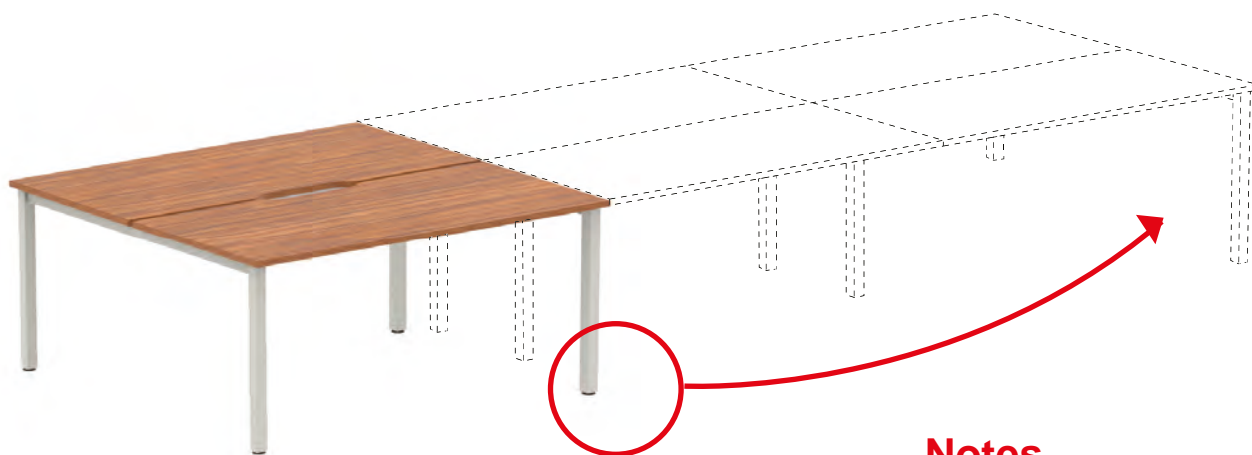

- Scalloped wire management cut-out
- Integrated fitting locator for Evolve Plus screens
- 25mm tops with 2mm protective ABS edging
- Sliding tops for easy wire management
- Six stunning finishes
- Floor levellers
- Telescopic extendable beam pack

Step 1

Decide on either a single starter desk or a back-to-back pod of two desks (shown below in colour)

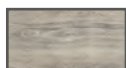

Step 2

Add an extension desk to match your single or back-to-back starter desk choice. The extension can be any width you decide. The dotted line drawing shows a typical back-to-back extension with a back-to-back starter unit.

Notes

Each extension desk comes with a smaller mini leg unit. This gives users improved leg space under the desk and provides an economical way to extend the starter desk. The full depth leg unit that comes with the starter unit goes at the end of the desking suite as shown on the far right of the line drawing to finish off a run.

HOME OFFICE

The Fleur Smart Storage Desk is a versatile solution for adaptable workspaces. Its rotating desktop cleverly pivots over storage units, ensuring a neat and tidy design when not in use. With two fixed shelves, two deep drawers, and a dual workspace, it offers comprehensive functionality.

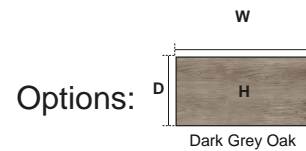

On the other hand, the Chester Boutique Console Desk merges style with practicality. Featuring dark grey oak wood finishes complemented by an antiqued gunmetal grey frame, it exudes elegance. The generously sized integrated drawer provides swift and convenient storage, creating a graceful blend of contemporary and classic styles.

SEATING

'We've got your back'

Headrest

Additional support for the long term user that requires further head and neck support.

Lumbar Support

The most critical area of the S shape spine is the lumbar. We have fixed and adjustable lumbar support options, the latter either operated by twist grip or inflating bulbs.

Seat Tilt

This will give the user a rocking action that can be tension adjusted. The seat tilt can also be locked in a variety of positions when coincided with a lock/tilt mechanism.

Mechanism & Levers

This determines the 'action' of the product. The way the seat moves in relation to the back. All levers are ergonomically shaped and placed for ease-of-use.

Castors

All our swivel chairs have twin wheel, high impact castors. This ensures they run smoothly over the average eight miles they travel each year.

It is one of the very few areas in the office that will provide an improvement in health and efficiency.

Seating has developed massively, even in the last decade. Now users weight, build, usage and tasks all contribute to finding the perfect product.

Feature-rich posture, task, ergonomic, operator, heavy duty and 24 hour chairs all provide outstanding support and comfort - and that translates to more efficiency at work.

This guide helps explain some of the features that make our chairs the envy of everyone.

Backrest

Backrests are available as either fixed or adjustable to provide a variety of options.

Armrests

Armrests can be static loop style or height adjusting to fit each individual user. Further options include flip back or folding arms that can be easily stowed.

Seat Slide

Users with longer or shorter legs often choose to use a seat slide for the optimum seating position for their personal needs.

Seat Height

A gas lift strut makes adjusting chair height easy. Lifting the lever releases the automatic gas piston and allows the chair to rise.

MOVEMENT AND PRODUCT ICONS

GAS HEIGHT ADJUSTMENT
Power assisted gas safety lift to raise height of seat.

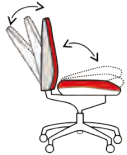

KNEE TILT
Scissor shaped forward mounted tilt. This tilts the chair from the back of the knee; avoiding pressure points.

RATCHET BACKREST
Drop the backrest to the lowest position and as you lift it to different heights, it locks on a ratchet.

HEADREST
Provides support to head and neck muscles.

SYNCHRONISED TILT MECHANISM
Backrest and seat recline together with approx 2:1 ratio in free float or locked action.

ANTI-SHOCK
Prevents user being thrown forward when back or seat adjustments are released.

ADJUSTABLE LUMBAR SUPPORT
Enhances lower back comfort with variable support feature.

ADJUSTABLE HEADREST
Headrest moves for optimum support and comfort.

SEAT ANGLE ADJUSTMENT
Seat angle is adjusted by a lever to meet ideal sitting position.

AUTO TILT TENSIONER
Automatically adjusts the tension on tilt mechanisms to suit individual needs.

INTEGRAL LUMBAR
A lumbar support within the chair to support lower back.

POSTURE SEATING
Chairs designed & engineered to provide supreme comfort, support & health-improving features.

ADJUSTABLE OR FREE FLOAT BACK
Permanent Contact Back (PCB) can be locked or can be free to float at any angle.

TILT TENSION ADJUSTMENT
Alters the amount of pressure required to tilt a chair depending on weight, build or preference.

FIXED ARMRESTS
Provides forearm support for mouse and monitor users.

WEIGHT
The maximum weight is stated in the icon, typically 125kgs. We also have heavier ratings up to 222kgs.

INDEPENDENT SEAT & BACK
Asynchronous adjustment. Seat & backrest can be locked in any position independently.

SEAT SLIDE
Adjusts the seat depth to fit your lower body and reduce any pressure trap points.

HEIGHT ADJUSTABLE ARMREST
Armrests with various heights for better forearm support and comfort.

USAGE
Most chairs are rated to perform throughout a normal eight hour working day.

INFINITE LOCK MECHANISM
Two lever: Adjust seat and back recline angle as one. Lockable in any reclined position.

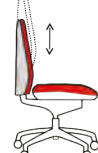

SEAT DEPTH ADJUSTMENT
Change the seating area for larger/smaller size to suit longer/shorter legs.

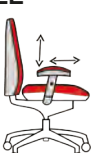

FOLDING ARMREST
Arms that can fold away to enable users to get closer to desk.

LOCK TILT MOTION
Single lever locks chair in upright position or allows free tilting movement.

HEIGHT ADJUSTABLE BACKREST
Allows variation of back height to suit different builds and preferences.

ADJUSTABLE ARMREST
Sometimes called a 3D arm; they adjust for height, width and depth providing ultimate personalisation.

GUARANTEE

All chairs come with a one-year minimum guarantee, while higher-grade options provide warranties of three and five years

Items accompanied by a one-year warranty include one year of protection for mechanical components and one year of coverage for upholstery.

Items accompanied by a two-year warranty include two years of coverage for mechanical components and one year of protection for upholstery.

Items accompanied by a three-year warranty offer three years of assurance for mechanical components and one year of coverage for upholstery.

Items accompanied with a five-year guarantee provide a five-year warranty for mechanical parts and two years of coverage for upholstery.

CHIROPRACTOR ENDORSED CHAIRS

It takes a very special design to win the approval of one of the UK's top specialist chiropractors. Leading healthcare professional Robert Bateman has tested and endorsed our posture chairs.

Dr Bateman comments:

"Back pain is currently the largest reported reason for sickness absence. The staff that use a chair promoting good posture with the correct support will be more productive and efficient with a noticeable increase in customer satisfaction and decreased absence levels. The correct chair is not an expense; it is an investment in your bottom line profitability."

Robert Bateman
Chiropractor specialist

CHIRO PLUS RANGE

Back pain and its associated injuries have become the primary culprits behind the loss of work hours, outpacing all other factors. This issue is on the rise, affecting a growing number of individuals, often due to the prevalent poor seating postures in office environments.

Meet the Chiro family, thoughtfully designed with ergonomics in mind, offering comprehensive functionality to suit every individual's unique physique. These chairs come equipped with an array of features and adaptability, ensuring they deliver optimal support to each user. They not only provide relief for those grappling with back pain but also act as a preventive measure against posture-related health problems.

Endorsed by the esteemed chiropractor, Dr. Robert Bateman, these chairs not only excel in functionality but also grant you the freedom to customize them with upholstery fabrics of your choice, extending beyond the standard options. The Chiros are not only champions of functionality and quality but have also earned their status as one of our most sought-after and value-driven seating solutions, thanks to their captivating design.

ECLIPSE PLUS RANGE

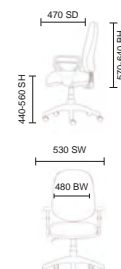

Meet the Eclipse family, your versatile everyday operator chair designed to thrive in a multitude of environments, from bustling call centres to the comfort of your home office. With its adaptable backrest that can be reclined and securely locked in any position, or used for continuous contact and support, the Eclipse Plus is the ideal choice for those who require enduring comfort throughout their workday.

Choose from a variety of four standard upholstery options to suit your preference or opt for bespoke upholstery to match corporate branding or personal style. This chair is not only visually appealing but also thoughtfully designed with features like a cushioned seat pad with a waterfall front and a contoured backrest for enhanced comfort. The Eclipse range also offers backrest angle adjustment and the option to include armrests or a Hi Rise Draughtsman kit, ensuring it caters to your specific needs, whatever they may be.

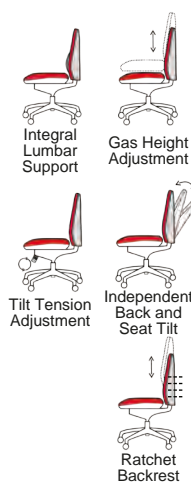

ECLIPSE PLUS XL

HEAVY DUTY SEATING

Embracing diversity in body shapes and sizes, we believe in providing style and satisfaction without compromise. Our 'Heavy Duty' range of products is tailored to accommodate users weighing up to 32 stone (200kg), ensuring that everyone in the office can enjoy a comfortable seating experience that meets their unique requirements.

The components of products within this category are specially designed to meet these demands, featuring a thicker seat pan, uprated gas stem and castors for enhanced durability, generous seating and back panels, thicker and higher density foam for added comfort, more securing bolts with for increased stability, and a robust mechanism with an increased thickness and gauge of steel. With our 'Heavy Duty' products, we prioritise not only style but also the utmost satisfaction and support for all individuals, regardless of their size or shape.

EXECUTIVE SEATING

In today's fast-paced corporate landscape, the expectations placed upon modern-day executives have never been greater. These individuals are required to maintain peak efficiency while frequently navigating extended working hours and high-stress environments. Whether you're a mid-manager or a top-level executive, the roles and responsibilities you undertake are multifaceted and demanding.

In such a demanding work environment, the significance of having stylish and comfortable seating cannot be overstated. It goes beyond mere aesthetics; it plays a pivotal role in providing essential support and a range of functions that are vital for achieving optimal performance in the workplace. Whether it's ergonomic design for superior comfort during long hours or adaptable features that cater to the unique needs of each user, having the right seating solution is paramount for executives striving to excel in their roles.

ZURE RANGE

Embark on a journey to unparalleled comfort with the Zure chair, boldly venturing into new realms of seating satisfaction. Our exceptional range of this distinctively stylish and posture-perfect seating solution offers an array of choices to suit your preferences. Whether you prefer the refined mesh, full upholstery, partial upholstery, or the strikingly flexible elastomer options, Zure has it all.

With carefully contoured seat and backrest, Zure ensures maximum comfort, while its high-quality outer skeleton envelops the user in touchpoint technology. The fabric and leather versions boast padded armrests, not only providing visual appeal but also enhancing comfort. On the elastomer variations, you'll find color-coded armrests adding a touch of vibrancy. The chair's polished aluminium base features highlighted castor detailing, completing its contemporary look.

VISITOR & CONFERENCE SEATING

Meetings – whether you embrace them or not, they often serve as the crucible for forging successful business ventures. In the contemporary, collaborative office environment, the notion of a company being the sole creation of one individual is increasingly rare. The era of collective thinking underscores the importance of harmonizing efforts to maximise our combined potential. This is where the significance of well-structured and effective meetings comes into play.

Whether you're engaged in discussions regarding the next sales and marketing campaign, negotiating pivotal deals, delving into intricate commercial details, or devising innovative internal work methodologies, performing at your best during meetings is paramount. Our range of seating options, designed for comfort, functionality, and style, will ensure you stay refreshed, engaged, and at ease. Our designers have meticulously crafted a diverse portfolio of seating solutions that cater to every need and budget, ensuring that your meetings are not just productive but also comfortable and purposeful.

AGILE SOFT SEATING

Workspace dynamics are undergoing a profound transformation. We now invest more time within them, face higher expectations during our stay, and engage in a broader spectrum of interactions with colleagues than ever before.

Soft seating eliminates the barriers that can sometimes emerge from conventional desk and visitor arrangements. Instead, it cultivates a collaborative environment where creativity and solution-oriented discussions flourish.

Our range of soft seating is meticulously crafted in the United Kingdom, integrating premium features such as eco-friendly hardwood frames, high-density reflex foams, robust webbing suspension, and top-tier designer fabrics.

You have the freedom to select from a range of foot and leg profiles at no additional cost. Moreover, you can enhance your workspace with optional extras like power outlets and USB charging ports.

Specialised Upholstery & Fast Track Fabrics

Our dedicated upholstery studio brings together seasoned craftsmen and upholsterers to create customised variations of the exceptional seating and screening solutions we offer.

This allows you to choose from an extensive range of hues, textures, and fabric categories. Many seasoned professionals now opt for non-standard fabric choices to align with corporate branding, distinguish various functional zones within a business setting, or simply as a matter of personal taste to enhance and uplift.

For those in a hurry, we offer rapid turnaround times on our fabric selections, imbuing our products with an added layer of sophistication and a unique tactile experience.

Look out for the custom fabric swatch symbol, which indicates items that can be tailored in a multitude of materials and colour schemes.

Please note, the customised images displayed have either been upholstered using our premium 'Band 1 Fast Track Fabric' or have been digitally manipulated to approximate the appearance. They may not represent a completely accurate depiction, as batch-to-batch colour variations are to be expected. Physical fabric samples are available upon request.

Our in-house machinists, who are highly skilled and possess years of expertise in upholstery, are adept at producing work of an exceptional standard.

AGILE SOFT SEATING FABRIC GUIDE

ERA

A stylish, clean-cut fabric family from the international Yorkshire mill, Camira. It is highly specified in achieving outstanding resistance to rub tests and is extensively used in domestic and contract applications.

ULTIMA

A cornerstone of the prestigious Christina Marrone design house these faux leather finishes have exceptional soft-touch appeal and the high wear factors of a high quality product. They are easy to wipe clean (avoiding any chemicals or soap) and have a 30% cotton content for a natural feel.

DOLLY

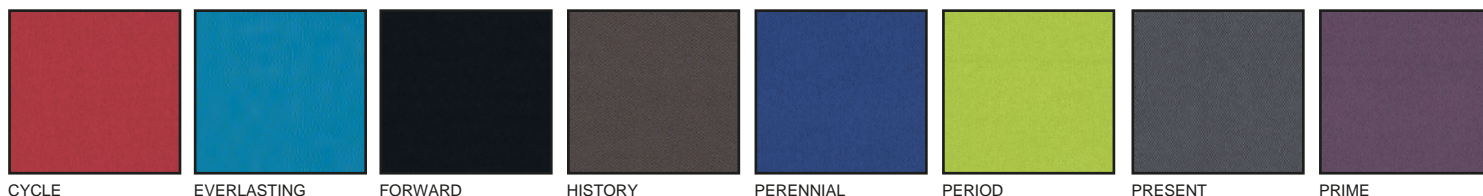

A richly textured, deceptively hard-wearing fabric suite with the look and feel of wool. Treated with a super stain guard finish that helps protect against stains & spills.
