Upower Cosmo Safety Boot

Safety boots in soft, hard-wearing, water repellent, Pull-up leather with PU-reinforced scuff cap, double lace and Kevlar® DuPont™ stitching that ensure outstanding mechanical resistance to traction and heat.

Safety footwear in protection class S3 HRO HI CI SRC with special insulation against heat and cold.

The sole in PU/Vibram is particularly suited for use on treacherous surfaces and uneven ground, improving stability and grip.

Aluminium AirToe toe cap to protect the tip of the foot and Save & Flex® PLUS, all-fabric, anti-puncture system stitched directly onto the upper for total coverage of the surface of the foot.

Comfort is guaranteed by the WOW insole, an anatomic insole in soft, breathable, anti-bacterial polyurethane whilst the Infinergy® system ensures over 55% of energy is returned with each step. The WingTex air tunnel inner lining ensures breathability and dispersion of moisture.

Ideal work shoes for wet and cold environments, for building sites, gardens and agriculture, installations, port areas, road works and maintenance and in every situation in which outdoor footwear is required that has a particular need for the sole of the shoe to be insulated against heat and cold and the sole to have greater resistance to heat. Anti-slip, oil resistant and abrasion resistant sole.

Upower Grampian Safety Boot

Grampian is a model of work footwear in S3 SRC CI ESD standard protection with soft full-grain leather upper resistant to water and protective, ideal for use outdoors and in a humid environment.

Mid-cut work shoes with Infinergy® insert secure an energy return of over 55% more with each step, improving performance and general well-being during the working day.

The PU / PU sole is anti-slip, anti-oil, anti-abrasion and anti-static and provides a special protection from the cold (A temp. ≤ 10 ° C).

The lightweight aluminium Airtoe® toecap ensures foot protection, while the presence of the Save & Flex Plus anti-perforation system totally "Metal-Free" provides 100% protection of the foot surface.

These comfortable and water-resistant safety shoes with WingTex air tunnel lining ensure high breathability and antibacterial, anatomic and shockproof given by the WOW Gel insole. The polyurethane and soft gel insole lifts the heel and protects the foot from minor bumps and pressures, adapting perfectly to the shoe.

The Grampians are Men's water-resistant boots for work ideal for carpenters, bricklayers, gardeners and farmers, gas station attendants, mechanics, tire specialists, electricians, welders, and warehouse workers, trucking and logistics, craftsmen, and house painters.

Upower Cambrian Safety Boot

Cambrian is a comfortable and breathable model of safety shoes with an upper in soft water-resistant Pull-up leather and WingTex air tunnel lining for air circulation and prolonged comfort.

Highly breathable work shoes with Infinergy® system ensuring energy return: over 55% more energy with every step!

These water-resistant safety shoes have an AirToe® composite toecap to protect the tip of the foot and the Save & Flex Plus anti-perforation system. It is textile and sewn directly on the upper to guarantee maximum safety and protect against perforation due to sharp objects such as nails or splinters.

Cambrian are oil and water-resistant work shoes that are very comfortable thanks to the soft and enveloping WOW Gel insole that covers the foot from minor bumps and pressures, adapting perfectly to the shoe.

S3 SRC CI ESD standard protection work footwears, with special protection of the sole from the cold and anti-slip, anti-oil, anti-abrasion and antistatic properties.

Water-resistant work boots appropriate for outdoor use in a humid environment and, particularly for trucking and logistics, craftsman, house painter, carpenter, bricklayer, gardener and farmer, the gas station attendant, mechanic, tire dealer, worker, electrician, welder, warehouse worker.

Upower Parker Light Safety Boot ESD

Ultra-light anti-static safety shoes with soft nubuck-effect microfibre, water repellent and S3 SRC CI ESD protection class upper.

Ankle-high safety shoes with light aluminium Airtoe® toecap and new generation abrasion-resistant, oil-resistant, no-slip and anti-static PU compound sole.

Lighter safety shoes made with innovative materials for the construction of the sole and of the perforation-resistant system, consisting of ultralight puncture-resistant textile insole. The result is a safety shoe whose weight has been significantly reduced, without compromising safety, to the benefit of workers' wellness.

Highly breathable safety shoes for men/ women with WingTex air tunnel lining and anatomical, antibacterial and sweat-proof U-Power Original insole.

The particular protection of the sole from the cold ($\leq 10^{\circ}\text{C}$) make these safety shoes particularly suitable for: electricians, carpenters, craftsmen, warehouse workers, and the logistics and transport sectors.

Upower Matt Light Safety Shoes ESD

Lightweight safety shoes with Airtoe® Aluminium toecap and sole made with an ultra light innovative new generation PU compound that significantly reduces the weight of the shoe.

The lightness of this safety shoe allows for greater freedom of movement, greater energy and better performance.

Safety shoes for women and men, with upper in PUTEK® star highly resistant to abrasion, water repellent and breathable. Toe protection with abrasion-resistant scuff cap.

Breathable shoes with no-slip, anti-static, oil-resistant and abrasion-resistant sole with innovative ultralight puncture-resistant textile insole, ideal for: craftsmen, electricians, carpenters, warehouse workers, and the logistics and transport sectors.

Comfort and well-being guaranteed by the Wingtex breathable air tunnel lining and the U-Power Original insole in light polyurethane compound soft polyurethane, anatomical, breathable and antibacterial.

Conforms to EN ISO 20345:2011

S3 SRC CI ESD protection class safety shoes which offer special protection of the sole from the cold.

Upower Logan Light Safety Shoes ESD

Low and light safety shoes with innovative perforation-resistant system consisting of an ultralight puncture-resistant textile insole and new generation PU compound sole.

These new highly innovative materials have allowed a considerable reduction in the overall weight of the shoe to the benefit of the well-being of the worker.

Super light S3 SRC CI ESD standard safety shoes with particular protection of the sole from the cold ($\leq 10^{\circ}\text{C}$).

High-sturdiness PUTEK® star upper and toe protection with abrasion-resistant scuff cap. Non-slip, oil-resistant, abrasion-resistant and anti-static sole.

Super light safety shoes suitable for wet and dry environments and, in particular for: electricians, craftsmen, carpenters, warehouse workers, and the logistics and transport sectors.

Highly breathable safety shoes with air tunnel lining that ensures the dispersion and absorption of moisture and the U-Power original insole in polyurethane compound.

Upower Thomas Light Safety Shoes ESD

Lightweight safety work shoes with upper in Nubuck-effect soft microfibre.

These low work shoes, with Airtoe® Aluminium light toe cap, in S3 SRC CI ESD protection class, feature an ultra-light sole built using a new generation anti-abrasion, anti-oil, anti-slip and antistatic PU compound.

The brand new puncture-proof textile insole makes these work shoes lighter than traditional models ensuring the protection of the sole of the foot.

The use of these innovative materials for the outsole and the anti-puncture system, together with the Airtoe® aluminium toe cap, allow a considerable reduction in the overall weight of the work footwear, which greatly benefits the performance and well-being of the worker.

CI safety footwear, with special protection of the sole from the cold, ideal for: electricians, carpenters, craftsmen, warehouse workers, and for workers in the transport & logistics sector.

The U-Power Original insole, built using a light polyurethane compound ensures comfort and foot health thanks to its antibacterial, anatomical and breathable characteristics. WingTex Air tunnel lining.

Safety shoes for men and women.

Uvex 1 X-tended Support S1 SRC Shoe

General features

- Particularly lightweight and versatile perforated S1 safety shoe
- Made from synthetic materials, so suitable for people allergic to chrome
- All sole materials are free of silicones, plasticisers and other paint wetting impairment substances
- Elastic laces for quick, individual adjustment, normal laces also provided
- Colour: black, red
- Available in sizes: 35 to 52

Protection features

- Protection class S1 in accordance with EN ISO 20345:2011 with additional marking for excellent slip resistance (SRC)
- Meets the ESD specification with bleeder resistor under 35 megaohms
- 100 % metal-free uvex xenova® toe cap – compact, anatomically formed, not thermally conductive and with good side stability
- Ergonomically designed outsole made from dual density polyurethane with excellent slip resistance
- Medial and lateral heel support for the foot with specially designed side frame – provides additional protection from ankle twisting, stabilises and guides the foot while providing impact protection

Comfort features

- Outstanding wearer comfort as a result of a recently developed last and the climate-optimised, breathable materials with perforation
- Virtually seam-free construction from high-tech microvelour material to eliminate pressure points
- Removable anti-static comfortable insole, with a moisture transport system and additional shock absorption around the heel and forefoot
- Soft padding on collar and tongue
